this book is the first of a three volume study of the structures and objects discovered
during nine seasons of excavations 2017 2025 within the ramesses ii temple precinct
conducted under the direction of sameh iskander this volume contains five chapters
organized in two parts the first presents in three chapters a clear understanding of the
precinct site its extant architectural mud brick structures outside the stone temple and a
careful investigation of the archeological objects and ceramic data obtained from the
excavation the second part focuses on the data obtained from the excavation of a
mysterious mixed deposit of materials that were brought from unknown locations and
dumped in one of the temple s magazines s15 this deposit offers new insights into our
understanding of abydos a site rich in historical and archaeological significance
