the field of educational psychology draws from a variety of diverse disciplines including human development across the life span measurement and statistics learning and motivation and teaching and within these different disciplines many other fields are featured including psychology anthropology education sociology public health school psychology counseling history and philosophy in fact when taught at the college or university level educational psychology is an ambitious course that undertakes the presentation of many different topics all tied together by the theme of how the individual can best function in an educational setting loosely defined as anything from pre school through adult education educational psychology can be defined as the application of what we know about learning and motivation development and measurement and statistics to educational settings both school and community based

airasian presents complex concepts clearly so that pre service teachers can understand them and solidly grounds these concepts in best practice through practical real well integrated examples he talks to not at users the text conceives of classroom assessment in a broader way than many other texts it focuses not only on the assessment needs of testing grading interpreting standardized tests and performance assessments but also on assessment concerns in organizing a classroom at the start of school planning and implementing instruction and strategies of teacher self reflection it views classroom assessment as an everyday ongoing integral part of teaching not something that is separated from life in classrooms the text is organized in a manner that follows the natural progression of teacher decision making from organizing the class as a learning community to planning and conducting instruction to the formal evaluation of learning and finally to grading
