

ADVANCED AISLE™ Slant-Cap® CONTAINMENT SYSTEM

SWDP's ADVANCED AISLE™ Containment System

High energy costs and accelerated energy consumption has forced data center managers to implement strategies in achieving separation between the hot and cold air in the data center.

SWDP's ADVANCE AISLE™ Containment System provides the most cost effective, easy to implement and site friendly total approach to achieve this positive separation in existing (retrofit) or new data center builds.

Our aggressive engineered approach reduces acquisition and installation costs, while providing the ultimate in effectiveness. We can custom design solutions to fit any site situations and of course, not only do you get the best possible solution, you get it fast and without the "premium" costs.

ADVANCED AISLE™ Containment Systems Features:

- Hot or Cold Aisle Containment
- Typical ROI of 12 months or less
- Accommodates aisle widths from 36" wide to 96" wide.
- Customization of sizes/shapes available to fit any site requirements and conditions including retrofits
- **Slant-Cap**[®] (clear or opaque) Class A rated, CA State Fire Marshal, UL & FM Global listed and approved
- Rapid manufacturing times ensure availability that fits your needs

Hot or Cold Aisle Containment Specific
